

Red Sea Housing Services

AC Technician (m/f)

AC Technician

Red Sea Housing Services is currently seeking an AC Technician to join our team based in Saudi Arabia. Starting date is ASAP.

Responsibilities include, but are not limited to:

- Install window and split unit air conditioning systems, connect the wiring and controls and test systems for proper functioning
- Troubleshoot window and split unit air conditioner equipment malfunctions and diagnose problems
- Making routine adjustments to maximize operational efficiency
- Record data when inspecting systems on proper forms
- Change spare parts such as condensers, fans, capacitors
- Conduct daily routine for inspections and check leakage
- Perform regular cleaning of the A/C equipment
- Work with tools that include but not limited to acetylene and brazing torches, pipe cutters, copper tube bender, voltmeters, pressure gauges, wrenches, and hammers
- Maintain assigned tools
- Maintain compliance with all company policies and procedures
- Perform related duties as assigned by Maintenance Supervisor

Requirements

You'll get to utilize and develop your technical skills in fast paced projects with other professionals from all over the world, so working under pressure and striving to meet the deadlines will become your second nature. You'll constantly have to rely on your time management and problem-solving skills and fine-tune them even more. Due to having a large international team of coworkers, you would need to be able to communicate effectively in English. Company abides by the highest safety standards, so you would be expected to do the same. We are seeking a senior professional, so you should have minimum 3 years of relevant work experience.

Education

Having a high school/university diploma in design/installation/maintenance of HVAC systems is a must to apply, as this will be your gateway to getting a work visa for Saudi Arabia. Applicants who have different educational backgrounds, regardless of their experience, will not be eligible for a visa.

Salary and benefits

Monthly net salary amounts to 3.000 USD. Company is the one taking care of the accommodation, meals, laundry services and transportation for their employees. Additionally, the relocation flight from the employee's home country to Saudi Arabia, and vacation flights back to their home country are also paid for by the company.

Application process

After we receive your application, and if it turns out to be great, our recruiter is going to contact you for a short telephone interview. This conversation should result in both sides getting to know each other better. You will briefly go over your past work experiences, interest for this position, proficiency in English language, your financial expectations, etc. If you pass the initial interview, you will be forwarded to the company's hiring managers for yet another interview. If you turn out to be just the right candidate and you accept the job offer, you will need to get a work visa for Saudi Arabia. Afterward, you and Red Sea Housing Services will start making history together.

So what now?

If you think you're the one we are looking for, don't hesitate to apply [HERE](#).

On the other hand, if you're having doubts or you don't have a CV ready or you just want to get more information about this job opportunity, contact our recruiter Boris at +387 33 266 166 or boris@kolektiv.ba, and he'll be happy to answer all your questions.

Red Sea Housing Services - Who we are

Red Sea Housing Services are specialized in the rapid deployment and functioning of temporary facilities and operations in remote sites. We have worldwide experience in the portable structure and food service/camp management industries. Our experienced operations staff and support personnel ensure a smooth start-up and a trouble-free working environment throughout the term of the contract.

We have become known for providing a one stop shop for all remote site needs including items like engineering, construction, and operations of well-balanced, nutritious meals and comfortable camp living environments. Through this we have earned the confidence of our clients who are concentrated in the oil and gas, mining, engineering and construction industries, and have helped them with their short and long term housing and accommodation needs so they keep on coming back to avail of our products and services.

We assist clients with their most challenging projects to determine the best possible option in order to satisfy each specific requirement. Our publicly traded company is recognized to serve all types of commercial and residential housing requirements, from temporary to permanent structures, including accommodation facilities, offices, kitchen/dining units, recreation facilities, laundry areas, labor quarters, drilling/rig camps, dormitories, guardhouses, hospitals/clinics, hotels, relief housing facilities and schools.

We provide professional camp management, food and housing services to our own rental camps as well as to the camps of others for contract. These services consist of menu management and meal preparation to meet the nutritional and health needs of an active workforce. Food service, housekeeping, and laundry services are based on a rigid set of health, safety, sanitation, and hygiene standards that meet and exceed industry standards.

All of our services are provided by a professional senior operations group who support our experienced and trained head office management, field level managers, supervisors, installation crews, catering and housekeeping personnel. We have developed hundreds of dedicated employees with the reputation for delivering first-class services and equipment in the most demanding housing and food services expectations.
