

Infobip BH d.o.o.

VoIP Product Owner (m/f)

VoIP Product Owner

1 (m/f)

At Infobip we dream big. Last year, over half of the world's population interacted with businesses through the Infobip platform. And we are just starting. By 2018 we want to interact with every mobile user on the earth.

Join our development forces in deploying the code that powers the performance of the Infobip platform.

Product Managers at Infobip drive vision behind:

- Our awesome API's, used by top messenger apps and social networks;
- Our platform as the backbone for many of the world's leading Mobile Operators when it comes to carrying their A2P (Application-to-Person) business;
- Our messaging solution installed at over 150 banks;
- Our A2P SMS spam filter used by top Mobile Operators;
- Our solution for high-volume messaging (SMSC) deployed all around the world, making us largest proprietary telecom network in our space;
- ...and we are just starting.

What you will get to do:

- Develop a clear product vision, strategy and roadmap, having customers in mind and aligned with business objectives.
- Share the vision of the product with all of the stakeholders (i.e. customers, management, development, marketing and sales teams), you being the subject expert point of contact for the stakeholders regarding the product.
- Address customers' pains, reflected in their increased product engagement.
- Data driven requirement development (usability studies, research, market analyses, competitors' analyses etc).
- Spot the right opportunities for the product, ensuring they are pursued at the right time, and save company's time and money by saying no to timewasters.

More about you:

- Maybe you are a Product Manager at a telecom company looking for a more global challenge, or Product Owner at an IT company seeking to make bigger impact.
- You just love products and share our passion & commitment
- You have customer-first way of thinking
- You are experienced in driving product strategy (perhaps in IT/telecom industries)
- You speak fluently to engineers, business people, customers and partners alike

- You base your insights, judgement and ability to make decisions on data
- You are able to influence decision-making at all levels within an organisation
- You are a self-starter with entrepreneurial spirit, excited to be a part of the next big thing at Infobip

Why our employees choose us (and stay)?

- Cutting edge technology & processes - To us, continuous delivery and integration aren't just buzzwords. Be a part of a team that deploys something to production every 6 minutes.
- Global products developed in-house - We depend on the quality of our in-house developed products, which is why we put so much emphasis on code quality. The fact that our products are being used by half of the world's population means that we have to make our software platform scalable.
- Opportunity knocks. Often. - Being a part of a growing company in a growing industry - we challenge you not to grow! Whether it's horizontal, vertical, or angular, we want to support the path that you want to carve.
- Learn as you grow - Starting from the Dev Campus as an onboarding program, to internal education, our 3-day Dev conference, Hackathons to attending conferences, we invest heavily in employee learning and development.
- Pay & Perks - Competitive salary, health benefits, flexible working hours, option to work from home, expatriate compensation packages for your business trips, a team taking care of all the equipment you need, team buildings and other organised activities, a kitchen stocked with the usual suspects... Talk about a balanced lifestyle!
