Project Manager (banking sector) (m/f)

Our client is a Hungarian business consulting company which operates with national, regional and international project assignments. The company provides consultancy, organizational and development services for large enterprises in enterprise applications, business processes and business intelligence. The following sectors are concerned primarily: financial institutions, telecommunications, SSC, pharmaceuticals, energetics. Due to new business opportunities, we are looking for a project manager, who would take over and work on large scale digitalization driven banking project in Croatia - Zadar. Name of the position: Project Manager (banking sector).
