Robotic Process Automation (RPA) Developer

We are currently recruiting for a RPA Developer to join our Comtrade System Integration and work with customers on automation opportunities to consult, design, develop, and/or support solutions using RPA and potentially other technologies.

Mission of our team is to integrate heterogeneous information systems inside enterprise as well as to exchange data with systems outside enterprise. We build fully functional solutions using different integration tools and " best practice" approach in the field.

We are engineers with holistic approach in providing software solutions.

Key Responsibilities

- Presales process involving RPA solutions
- Understanding of bussiness use case that should be automatized using RPA technology
- Development and deployment of the solution using best practices
- Post production support
- Provides continuous advice to RPA developers and organization during project delivery

Technical requirements:

- Min 1 years of experience in IT industry
- Min 1 years of experience in development and deployment of RPA solutions
- Experience of developing documentation (technical requirements, and design specification)
- Hands on experience with at least one of the following technologies: Softomotive, WinAutomation, Automation Anywhere, WDG, UiPath

Additional requirements:

- A high level of initiative and self-responsibility
- Robotic Process Automation certification is a plus
- The tendency to work well within a team
- An analytical and structured approach
- Good Analytical skills and the ability to grasp new products and scale up in a short span of time
- Ability to work individually as well as in a team

Our offer:

- A chance to work with an outstanding team of people in familiar atmosphere
- Great environment for personal and professional development
- Opportunities for additional professional training and certification
- Competitive salary
- Lots of benefits that support your private life (parking on premises, child time bonus, private health insurance, family day, sports and recreation facilities, etc.)
