Scooters Mechanic (m/f)

As a Mechanic, you will be responsible for diagnosing damages and repairing scooters. This is a very important job, as we are responsible for the safety of our fleet's users. Once repairs have been completed, it will be important to test the scooter in order to confirm its safety. Your daily adventures will include: - Repair scooters to maintain the highest level of quality - Perform general repair work and check-ups - Test scooters before releasing them - Inspect the scooters in use and identify problems within the different parts of the product - Manage the local warehouse - Report the status of inventory in the local warehouse - Assist the local operations team in providing best service to our users
