

Technical Drafter (m/f)

JOB DESCRIPTION

Technical Drafter
Sarajevo

PURPOSE

CT-technologies are looking for a Technical Drafter with experience in the construction industry to join our engineering office in Sarajevo. Your role will be to coordinate the collection of data and incorporate this information into drawings and schematics.

OBJECTIVES

- Ensure drawings, details, etc. are done according to a high technical standard.
- Support the engineering office as regards project design.

RESPONSIBILITIES

- Responsible for preparing all necessary drawings as per instructions by Project Manager and Design Engineers.
- Preparing project manuals.
- Assist Sales and Marketing with sales drawings.
- Support engineering team as needed.

QUALIFICATIONS AND REQUIREMENTS

- At least 2 years of AutoCAD experience. Preferably within the construction industry.
- Minimum education: technical drafter from a technical school or community college.
- Preferably experience in Revit and 3D drafting (and possibly also in Sketchup).
- Basic computer skills (Microsoft Office).
- Good English skills.
- Attention to details.
- Team player.
- Comfortable with a "desk-job".

ABOUT CT-TECHNOLOGIES

CT-Technologies are specialized in designing, supplying materials and equipment for insulation of Cold Stores and Food Processing Plants based on specific demands from our clients. We are a small but growing company with offices in Denmark, Bosnia & Herzegovina, Indonesia, Vietnam and the Philippines. See www.ct-technologies.dk for more information.

INFO

We offer a competitive salary and great opportunities for personal development. If you think, you can

contribute with your skills then please send your English CV to Beway Bakir on bba@ct-technologies.dk

Please add "Technical Drafter" to your e-mail headline.
